SUMMARY

Technology & Digital Operations professional with 4+ years of experience across full-stack web development, IT infrastructure, information security, and SEO/GEO strategy. Track record of delivering measurable outcomes: 4.7x improvement in daily search impressions and 3x growth in daily clicks within 18 days versus a 16-month baseline, 5.3% CTR against a 2–3% industry average, and zero reportable data breaches across tenure. Proficient in LLM-augmented development workflows and AI-driven operational execution.

EXPERIENCE

Technology & Digital Operations Lead

WorthMinds

January 2025 – Present

Ahmedabad, Gujarat, India

- Architected end-to-end digital operations spanning brand communications, social media strategy, and project management, deploying LLM-augmented workflows (ChatGPT, Claude, Gemini, Cursor, n8n) to reduce content production overhead while maintaining consistent cross-channel output.
- Built and deployed scalable full-stack web solutions using AI-assisted coding workflows, directly compressing development cycles and enabling consistent, on-schedule deliverable release across all digital properties.
- Led cross-functional coordination between design, content, and leadership teams, establishing repeatable operational frameworks that accelerated project turnaround and improved stakeholder alignment.

Information Technology Specialist

Inobal

August 2023 – Present

Ahmedabad, Gujarat, India

- Developed and deployed full-stack company website (PHP, Laravel, cPanel) end-to-end; led complete SEO & GEO strategy from technical audit through execution, scaling daily impressions **4.7x** and daily clicks **3x** within 18 days against a 16-month baseline (206 vs. 44 impressions/day; 11 vs. 4 clicks/day), with **5.3% CTR** outperforming the 2–3% industry average.
- Spearheaded IT infrastructure management, data privacy compliance, and information security governance, sustaining **zero reportable data breaches** across all monitored systems throughout tenure.
- Supported end-to-end hiring operations and internal team coordination, contributing to a structured onboarding process that improved new-hire ramp-up speed and cross-team operational alignment.

IT Specialist

Shree Bhavani Hallmarking Centre

July 2022 – July 2023

Ahmedabad, Gujarat, India

- Administered and maintained full IT systems and hardware infrastructure for hallmarking operations, achieving **near-zero unplanned downtime** across a 12-month tenure through proactive monitoring and maintenance.
- Implemented data handling and record management process optimisations, reducing manual intervention in routine IT workflows and improving overall operational efficiency.
- Resolved **15+ support tickets per month** across network, software, and hardware domains, maintaining high first-contact resolution rates across all issue categories.

.NET Developer

Arham Technosoft

January 2022 – June 2022

Ahmedabad, Gujarat, India

- Developed and maintained enterprise-grade web applications using the .NET framework (C#, ASP.NET MVC, SQL Server), contributing to multiple client deliverables within structured Agile sprint cycles.
- Collaborated with senior developers to debug, optimise, and deploy application modules, measurably improving application performance across tested environments.
- Built end-to-end full-stack .NET proficiency across front-end, business logic, and database layers, establishing the technical foundation for subsequent IT and operations roles.

EDUCATION

Master of Science – Computer Software Engineering

Indus University Ahmedabad

January 2021 – May 2023

Ahmedabad, Gujarat, India

Bachelor of Science – Computer Software Engineering

Indus University Ahmedabad

June 2018 – May 2021

Ahmedabad, Gujarat, India
